TICKLISH POINTS IN PROPOSED LAWS

Central Committee Will Discuss Them With Legislators

SUB-COMMITTEE RAISES IMPORTANT QUESTIONS

THOUGHT THAT ACT TO GIVE THE COUNTY WATER WORKS MAY VIOLATE ORGANIC ACT

The Republican Central Committee's executive committee at its meeting held last night dwelt mainly on the matter of legislation to be handled by the coming Legislature, more especially those which have been embodied in the Republican party platform. C. G. Ballentine, the chairman of the Central Committee's committee on legislation, reported that his committee had for some time past been working on drafting up bills to cover these points, but none of them had been completed as yet.

It was finally decided to ask all the Republican members of the coming Legislature who are now on Oahu to attend the next regular meeting of the Central Committee, which will take place next Monday evening at 7:30 o'clock, in order that the subject of future legislation could be thoroughly discussed.

The laws which the Republicans will recommend for passage by the Legislature can, generally speaking, be said to have narrowed themselves down to five main propositions. These are the liquor law, the primary law, the law making the income taxes of corporations made payable in the County in which they do their business; the law to pass the water works over to the Counties, and the law to establish a board of control in each County, which is to take some part in the running of the schools.

These are the five matters which (Continued on Page 2)

Help In Life

To be correctly clothed will make friends and unlock doors everywhere. This time is past when education was an all-sufficient passport and a guarantee of at least moderate prosperity.

Nowadays a man is measured by his clothes as much as by his knowledge. Society and business life demands of its members the observance of a certain code in clothes.

Good taste counts for more than money in this matter, and good taste is always assured in Correct Clothes for Men, bearing the label of ALFRED BENJAMIN & CO.

GRAND JURY CRITICISES GAMBLING, POLICE AND SUNDAY LIQUOR SELLING

The final report of the Grand Jury in. The indictments and no bill are included in the report.

On motion of Prosecutor, G. Glazier, when the Grand Jury called on Sunday, was ordered discharged from custody. Those against whom no bill was found will probably be arraigned either tomorrow morning or Monday.

The report contains nothing of a sensational nature. Considerable space is devoted to the subject of gambling, and some other evils, particularly the selling of liquor without license on Sunday, are made the subject of criticism.

The Grand Jury filed into Court just about noon, and the former stated that they were ready to report. The report was then submitted without reading, and was signed by the Court and ordered filed.

Judge De Bolt took occasion to compliment the jury on the work it had accomplished, and particularly on its taking up the subject of gambling. For three or four years, he said, he had been trying to get Grand Jurors to do after this evil. The present Grand Jury had taken up the matter thoroughly, and the Judge said that he believed the results of their work would be of much benefit to the County.

Deputy Attorney General Fassett also thanked the Grand Jury for its diligence and efficiency. Senator Clinton Hutchins stated that he wanted to thank the Court, the court officers and especially the Attorney General's department for their aid in the investigations conducted by the Grand Jury. The Attorney General's department, he said, had at all times stood behind the Grand Jury and had rendered every assistance possible.

In addition to its final report, the Grand Jury returned three new indictments and one no bill this morning.

HONOLULU BUYING STOCKS ISLAND SPECULATORS MEET WITH SUCCESS IN NEVADA MINES

—HONOLULU, November 26.—Interest in Nevada mining stocks has been growing rapidly for some time past. It is said that, while a large number of men are buying and have bought stocks in the various concerns in Nevada, as far as there has not been a single loss recorded.

All of the stocks in which local people have invested have advanced in value. In two or three instances men in this city are said to have cleared up \$50,000, while there are a number who have made smaller amounts, but still remain into the thousands.

Daily stock purchases are wasted from Mother Earth. Tenderfoots and inexperienced men have become millionaires overnight; a few weeks ago they labored for day's wage. YOU CAN DO THIS ALSO. The chances are better now than ever before.

Many of our Island clients have reaped stupendous profits by following our advice, in application of which we reproduce the above from the San Francisco Call.

The early posts of '95 will see more and quicker huge fortunes made than since Comstock days. This is not speculation — THIS GOLD IS THERE. We are right where you need us in San Francisco, where the market for Nevada shares is made. Our Rogers are constantly on the pulse of the mining stock situation, and we have accurate knowledge of the good stocks.

These pictures are said to be the best ever taken and will be shown tonight at the Orpheum in connection with the exhibition by Jack Johnson.

This fight was referred by Jim Jeffries and the pictures show him in action with the preliminaries to the opening of the real battle of twenty of the most thrilling rounds ever seen in the prize ring.

The exhibition will begin at 8:30 sharp.
